TOOLS FOR LARGE FORMAT TILES

CAM^{MkIII} disassembled.

CAM^{MkIII} in transport configuration.

PACKAGE

BOX

- Cart designed for the transport and handling of large format tiles (for instance 3200x1600 mm - 10.5'x5.2');
- Lightweight (20,4 Kg – 44.9 lbs), it can be quickly disassembled for maximum ease of use and to minimize its volume for ease of transportation;
- It allows to easily and safely spread adhesive in the back of the tile ("back-buttering"). For this purpose, it comes with two height-adjustable hooks for holding the handling devices (i.e.: EASY-MOVE) with the slab fasten on them;
- When the handling devices / frames are on the CAM^{MkIII}, the suction cups remain fully accessible. If needed, this allow to easily restore the vacuum level. This feature is particularly relevant when installing textured large format tiles;

- One side of the cart can be used as storage for the transport of one or more slabs;
- Wooden shelves on both sides of the cart provide safe support for large format tiles;
- On the storage side there are 2 height-adjustable rubber supports and plastic protections to prevent any accidental damage to the slabs;
- Height-adjustable safety hooks (which can be adapted to the dimension of the slab) to prevent slabs to fall;
- Two of the four pivoting wheels are provided with brakes so to prevent the cart to accidentally move;
- Maximum load: 250 Kg (551 lbs).
